

# ACCESS RULES

**Reservations are strongly recommended.**

At the time of booking, personal data (identity card of all family members who will be staying at the campsite) will be requested to check in online.

Upon arrival at the campsite, if the check-in has already been carried out, you will have to approach your vehicle near the reception leaving the yard free, approach the office, which will not be allowed access, then stop on the lines indicated on the floor and provide the name and surname with which the booking was made.

If you have not booked a pitch and therefore you have not checked in online, upon arrival at the campsite, after approaching your vehicle at the reception, they leave the yard free, you will have to hand in the documents of each person who will stay at the campsite.

**Access to the reception**, as in all common areas, is allowed only and exclusively by **wearing a mask**.

Access to the reception is allowed only to **one person a time**, therefore only a member of the family will be able to go there to check in.

If a customer is already present at the reception upon arrival, we kindly ask you to wait for your turn on the lines indicated on the floor to ensure the safety distance (a maximum of 2 people can stop outside the reception, whoever arrives after is please wait inside your vehicle).

**We also remind you that guests will not be allowed access.**

**Assemblies are prohibited. It is strongly recommended to wash your hands often.**

Collaboration and respect from everyone is requested; anyone who does not respect the rules will be removed from the campsite.
